1. Newly submitted claims 1-11 and 45-48 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Claims 1-11 and 45-48 are drawn to a combination of the elected container and a rotary type heater/cooler with a circumferential surface classified in class 62/340 and not previously claimed. Further more the claims of Groups II and III do not require the circumferential wall of a rotary heater/cooler. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-11 and 45-48 have withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. The amendment filed on 12/9/06 in effect canceling all claims drawn to the elected invention of the subcombination container and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because the elected invention was directed to the subcombination container, not the combination of a container with a rotary heater/cooler having a circumferential surface.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

3. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with
